

Congressional remapping for IL03

Tammy Georgiou

to redistrictingcommittee

To whom it may concern,

Hello. I am a proud 20 year resident of the 3rd Congressional District and a lifetime resident of Illinois. I am very concerned about remapping of the Congressional Districts happening now. If what I am hearing is true, IL03 will look much different after the remapping process is completed. I cannot stand by without having my voice heard on this matter. IL03 is an Urban and Suburban District, not a rural District. I live in the heart of IL03, Palos Hills. I am 5 miles from Chicago City limits. My concerns are tied to what is happening in Chicago and near suburbs. Rural areas do not share the same issues and concerns with the current IL03 residents. It would be a huge disservice to exclude my neighbors and areas that share similar issues to expand to areas that will never share concern and issues that a Congressional Representative needs to address. I am requesting that consideration be made to the people living in district IL03, our voices are what matter as we will live with the consequences of your actions.

Sincerely,

Tammy Georgiou
